DETAILED ACTION

Claims 3, 6-7, 9, 11-29 and 36-46 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest the claimed invention. Specifically, the prior art of record fails to teach or suggest identifying a candidate reuse region of a software program, sampling set-values for an input set, and selecting based on tracking the set values the candidate reuse region as a computation reuse region, as substantially recited in independent claims 3, 11, 23 and 29 and identifying a candidate load instruction and instrumenting to sample a location-value every S occurrences of the candidate load instruction, wherein S is an integer greater than 1 as substantially recited in independent claim 16.

The prior art of record, **Connors** et al., "Compiler-Directed Dynamic Computation Reuse: Rational and Initial Results", disclosed computation instances (page 162, first paragraph under 3.1). However, **Connors** failed to disclose the independent claims as recited including tracking during the execution a number of times a set-value is encountered and selecting based on tracking.

Art Unit: 2193

The prior art of record, **Calder** et al., "Value Profiling and Optimization", failed to clearly disclose the independent claims as recited including instrumenting the software program to, when executed, sample a location-value every S occurrences of the candidate load instruction, wherein S is an integer greater than 1.

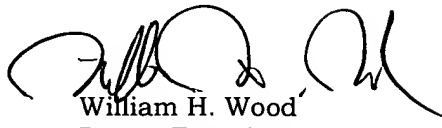

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
